

NEW SERIES.--NUMBER 276

BENNETT H. YOUNG, President. **J. M. WRIGHT, General Manager.**

J. M. WRIGHT, General Manager.

W. P. WALTON.

It had to come. The Blaine scandal of which we have been cognizant for years, is published in full in a Chicago paper. Boiled down to a few words, the lengthy publication sets out that while James G. Blaine was a teacher in Col. Thornton Johnson's military school at Blue Lick, Ky., he seduced a young lady in Col. Johnson's school at Millersburg. The appearance of the reduced soon became the talk of the section and the result was the breaking up of both schools and the financial ruin of Col. Johnson. Mr. Blaine finding that the country was getting to hear for him left the State in an abrupt manner, and was shortly followed by the woman, whom he was compelled to make his wife. The difference between the scandals on the two leading candidates for the Presidency is that Blaine under a promise of marriage, overcame the scruples of a young woman, who yielded her virtue to him, for which he made the only reparation in his power when forced to do so; the woman with whom Cleveland's name is connected was a widow and a loose one at that. During their liaison a child was born to the woman and notwithstanding it was proved that she had been intimate with two other men, Cleveland shouldered the responsibility and since marriage was out of the question, did all that an honorable man could under the circumstances. Both of these indiscretions happened years ago, since which time nothing has been said against their private lives. They have nothing to do with the fitness of either of them for the high office to which they have been nominated and it is a shame that such scandals have been forced into the campaign by the republican papers. There are not many men living of deal against whom come such a story might not be circulated and we cannot see the use of publishing these which seem to have been so well attested for. The public lives of these men are more fit for scrutiny and while our candidate in the light of comparison stands even better in his private life than Blaine, the record of his public life is one page of bright and honorable dealing with his fellow-men. Blaine on the other hand is smirched with corruption and his colossal failure is the result of using public office for private gains. We believe the people by their votes in November, will show their repugnance of him and his methods.

WM. PURCELL, the New York editor, who resigned because he could not support Cleveland and withdrew from the editorial management of a democratic paper for the same reason, has been quoted very gleefully by the republican papers all over the country, as charging that Gov. Cleveland is a "moral leper," now publishes a card as follows: "I now desire to say that information has come to me from a source in which I place implicit confidence, materially changing the state of facts upon which the remark was made. Hence, in justice to Gov. Cleveland and myself and to all others whom it may concern, I withdraw the characterization and request that hereafter it be not attributed to me." Mr. Purcell will now please go in his hole, draw it in after him and show himself no more this side the judgment.

MURAT HALSTEAD, a disappointed and sore politician, hoping to gain the good graces of Blaine, whom he socially abhorred and violently opposed in 1876 and 1880, telegraphs to the Commercial Gazette from New York the monstrous lie that it is currently reported there that arrangements have been made to withdraw Grover Cleveland from the democratic ticket. When a man of some ability and previous good standing can resort to so low and contemptible a trick as this for the sake of a possible loss and fish, it is evident that the party is in a strait for leaders and ideas. There can possibly be no nomination for the alleged rumor. The democrats are not only pleased but proud of their nominee and will elect him so sure as the day arrives.

A negro in Virginia attempted to violate the person of a young white woman but her screams caused him to flee before accomplishing his design. He was pursued by a mob and caught, when he was given choice between death and 125 lashes on his back. He chose the latter, but by the time 100 had been applied he was a bleeding, festering mass, so near death that his tormentors let up on him. When he in a measure recovered he was told that another 100 would be applied if he was ever seen in that country again and was allowed to go.

The Public Printer, Dr. John D. Woods, issued the first number of the Capital at Frankfort Saturday and we are just in receipt of it. It is a handsome 7 column folio and when it is told that the editor is assisted in his editorial work by the brainy and experienced Hon. Geo. W. Triplett, it goes without saying that it is bright and interesting throughout. We will hail its weekly visits with pleasant anticipation, and would advise all who love a good thing to send \$1.50 and get it for a year. As the patent medicine men say, it may save your life.

The number of animals Dr. Brown Sequard has vivisectioned goes into the thousands. His latest exploit was to cut off the head of a dog and then, by means of a transfusion of blood from another dog, make the decapitated head show signs of life. The cruelty of the matter seems in taking a dog which was familiar enough with his voice to recognize it on being spoken to. Can anything be more horrible than this?

There seems to be no longer any doubt about Judge Holt's election to the Appellate bench. We have no regrets at the result, in fact we are rather glad that Riddell was defeated, if the charges of his connection with the disgrace and death of Judge Reid have even a semblance of truth. The means used to accomplish his nomination, too, were of a very dubious nature and his defeat will teach the democracy a lesson, which is that a mere nomination is not all that is necessary to secure the election of a man of whom the people have any doubt. Judge Holt is said to be a much better qualified man than Riddell and his appearance on the bench will no doubt have a salutary effect on it. The election of Holt can not be claimed as a republican victory since he could only have been elected by dissatisfied democrats.

Under the state of case, which the N. Y. Sun makes, the election of Blaine would be a real blessing in disguise. It says: "If Blaine should be beaten, the republican party might be reorganized, reconstructed, inspired with new life and saved. But if Blaine is elected, the ruin of the party seems certain. During half a year of power under Garfield, he brought it almost to dissolution, and nothing but the patience, tact and judicious inactivity of a man of genuine political talent could have restored it. Now, if the same Blaine should be put at the head, his vast incapacity and his brilliant genius for mischief would surely bring the party to a speedy and irredeemable end."

The faith of the Newark (N. J.) Advertiser in practical sense being uppermost is happily expressed in the following few lines: "We read the crop reports with more interest than we do those on any other subject. It may be temporarily exciting to know that one horse has beaten another a quarter of a second, or that another comet has been discovered. The fashions are of interest to some and the cholera finds the world attentive; but after all, this is a utilitarian age and the report that flour may be fifteen dollars a barrel next winter would create a greater sensation than the discovery of a race of white people in Central Africa."

THE MORMONS are terror-stricken at the news of the killing of five of their elders, who were out recruiting in Tennessee and it is safe to assume that they will send no more out soon. It is a pretty rough way of stopping the business, but it is an effective one.

The republican national committee evidently wants to prosecute a canvass of Holt. It bought for distribution 500,000 copies of the dirty little Buffalo paper, which first printed the alleged scandal on Cleveland.

THE Cincinnati Evening Post furnishes all the news at one cent a copy. It is a live little sheet and never gets left on an item. See advertisement elsewhere.

The Bell telephone patent has only eight years more to live, and the moment the patent expires the country will be flooded with telephones costing almost nothing. The ordinary Blake transmitter, for instance, an almost indispensable adjunct to every telephone, costs two dollars to manufacture, but one is now shown to New York electricians which does the same work, is no bigger than a thick coat button, and costs, according to its inventor, Park Benjamin, less than two cents to make. Benjamin believes that when the telephone patent expires telephone service will become so cheap that no house will be without a telephone, the cost not exceeding one dollar a year, and the charge for conversation across the continent being but trifling.

WHAT A CRAVAT PARTY IS.—The Lexington Gazette wishes us to explain the "Cravat party." Well, it is a party where a price of admission is charged and each gentleman is supplied at the door with a cravat and each lady with a bow. Each gentleman is expected to find the lady whose bow matches his cravat and devote himself to her entertainment. This gives rise to many novel and amusing situations.—[Woodford Sun.]

HOW LOGAN JOINED THE CHURCH.—The manner in which John A. Logan joined the church is as follows: In 1865 he was running for Congress. There is a strong religious sentiment in Southern Illinois, and the prevailing creed is Methodism. During the campaign it was urged as an objection against Logan that he was not a "professor," and had never joined the church. He was in Washington at the time, and when he learned that the fact was strongly influential against him, he telegraphed the pastor of the church at his home in Cordoba to place his name on the roll of membership and he would be baptized and subscribe to the confession of faith as soon as he got home.

The cost of the electric light for the illumination of cities, as compared with gas, has been computed by Hartford, Conn., where the lights have been in use for about a year. The reports state that each electric light in use displaces 61 street gas burners, besides giving at the same time at least ten times as much light. The gas lights cost \$45 per burner per annum, keep burning 625 nights in the year, while for the electric lights 65 cents night is paid. The electric light being equal to 61 gas burners, a saving of \$15.60 per lamp per year is effected by the use of electricity, besides the cost of lighting and extinguishing the gas lamps.

A nice, pious young man, who tried to steal a kiss from a Washington belle, got his nose so covered with red paint that his pastor subsequently stopped him for ten minutes on the evils of strong drink.—[Burlington Free Press.]

THE LINCOLN MILLS were put in operation yesterday after remaining idle several months and farmers will no longer be put to the inconvenience of going a long distance to have their grinding done. The Mattinglys intend to make it a paying institution all around.
THE K. C. will run an excursion train to Richmond about 3 P. M., on the 19th, to accommodate those who wish to attend the Sunday school convention to be held there. The train will leave after the arrival of both the L. & N. trains that day and the fare will be fixed at very low rates.
THE Stanford Club slipped in Jim Guest, Jr., of Boyle, on the Williamsburg Club as catcher, supposing that they would not "catch on," but they did, as the following written by Mr. G. A. Denham on the register of the Myers House shows:
"Then here's to Stanford—Danville too, they have our richest blessing, We like their style of playing much, But don't their style of Queer (leg)."

A MATCH game of base ball will be played by the Stanford colored nine with the Somerset nine on the grounds here next Tuesday beginning at 3 P. M.
THE house of Mr. Isaac Hamilton at Howland caught fire Tuesday, but was extinguished before doing greater damage than to burn off a portion of the roof.
COAL, COAL.—In large or small quantities delivered at your house cheaper than ever before. Sold exclusively for cash. Leave your orders. Bright & Curran.
It is absolutely dry here that the grass fields are catching on fire and burning up. Rain is fearfully needed and unless it comes in good quantity soon, the corn crop will be cut very short. The pastures are now almost worthless.
COL. EPHRAIM P. OWSELY is the most important looking man in town since his wife presented him with a fine baby. He arrived Tuesday night and has been named Mattie Hays Owsley, in honor of an only sister, who died several years ago.
GREAT KY. BALM.—We would advise our friends afflicted with corns, blisters, tetter, ulcers or dyspepsia, womb and kidney diseases, sick headache, neuralgia and piles, to try it and get cured. It does cure. Penny & McAllister have it.

THIRTY five buildings, including the four large brick store rooms on Main street, have been completed, or are in course of erection, in Stanford since the first of January. Fifteen dwelling houses have also been put up at Stanford Junction within that time and the good work goes on.
RE-INVEST CHARGE.—Mr. W. P. Tate has purchased George McAllister's interest in the drug store of Penny & McAllister and has taken charge. Mr. Tate is an experienced merchant and we are glad to add him to Stanford's growing list. Mr. McAllister, we understand, designs going West.

THE watermelon crop is small in size and quantity this season. The largest we have seen did not greatly exceed the size of a tomato head. If any of our farmers can beat that measure, they can prove it by leaving sample at this office, not necessarily for publication, but as a guarantee of good faith.

Geo. E. EVANS, the well-known L. & N. train dispatcher, says the Louisville Times met with a serious accident at Leeper Park yesterday afternoon. He was pushing for the Stanford Hotel club and in trying to pass a very swift ball broke his right arm between the elbow and shoulder. He is sitting in the grand stand and heard the home cheer.

THE trial of J. R. Polk for the shooting of Martin Owsley was called Tuesday at Mt. Vernon and began. The regular panel was exhausted and about 25 others had to be examined before a jury could be found. The testimony was given by the defendant offering no new arguments were then made and the case given to the jury, which remained out till 2 P. M. Wednesday, when to the surprise of many, they brought in a verdict of manslaughter and fixed his punishment at 2 years in the penitentiary.

A BAD BOY.—Robt. Fields was arrested on election day for carrying concealed weapons and turned over to the custody of Constable Martin, who allowed him to go home and he did not return. Tuesday he went out to recruit him and get Fred Nickels, who wanted for carrying a concealed weapon. He succeeded in capturing both and started to town with them. Nick attempted to make his escape, when Fields told Martin to run after him and he would remain right there. In the innocence of his unsophisticated mind he did so, but being as he claims without a pistol, he could not make Nickels stop and when he returned Fields had also vanished. After standing around awhile in a dazed sort of way, Martin returned to town and that night with a posse went to hunt the rascals down, but they had "gone where the woodbine twined" or some other place. At any rate he did not capture them. Martin blundered badly in letting Fields go in the first place and in not having a pistol or a shot gun when he went to arrest him in the second place. It ought to teach him a lesson, that there is no honor to be found with men who commit crimes and they should be treated with no consideration whatever.

Attention Democrats.
In conformity with the suggestion of the Democratic State Central Committee, I hereby call a mass meeting of the democracy of Lincoln county to assemble at the Court House in Stanford at 2 P. M., Saturday, August 16th, 1884, for the purpose of selecting a new county committee or to confirm the one now existing. A large attendance is desired. J. E. LYNN, Chm., Democratic County Committee.

W. P. WALTON, Secy.

THE LATEST.

FRANKFORT, KY., August 14.—A desperate attempt was made by the convicts to escape to-day. They attacked the guard and a fearful struggle ensued during which one was badly wounded. A guard was also severely hurt. Eight convicts succeeded in making their escape including George Abop, the noted desperado, sent from Louisville for life.
BLAINE in a fit of desperation has brought suit against the Indianapolis Sentinel for saying he seduced his wife and afterwards married her at the point of a shot gun.
PAINT LICK, GARRARD COUNTY.
—Most of our citizens are taking in the Richmond fair this week.
—Mrs. Cynthia Stevenson has sold her house and lot to Dr. Spillman for \$100.
—The protracted meeting at Walnut closed Monday without any additions. The Baptists will organize a church here next month.
—A Mr. George Ballard and Miss Lottie Mallow were on their way to church the horse became frightened, ran off and threw them out of the buggy and dislocated one of Miss Mallow's shoulders.
—Tom Saper and John Wear are attending school, one at Lowell and the other at New Hope. They have both learned their first lesson perfectly, that is to love their teachers. Miss Gailman and Miss Piper are teaching the public schools, the former at Lowell and the latter at New Hope. Miss Nannie Kennedy a little beauty from Crab Orchard is the guest of Miss Sallie Hackley this week. Mrs. John Paul of London is visiting relatives here.

LIVINGSTON, ROCKCASTLE COUNTY.
—Miss Rosa Reppert commenced on public School Monday morning. We feel highly favored with Miss Reppert, as we are satisfied she is a very excellent teacher and will give satisfaction to all.
—It seems that the watermelon patch so long concealed by Uncle Geo. Sambrook has been discovered by some one and a great number of them stolen. If this attempt is made again we fear some physician will be called to pick him out of some one.

—Charley Shively stopped off here to sell our merchants their fall stock of clothing, but received the sad news of his father's death, consequently had to return to his home, Campbellsville, to attend the burial. He has our sympathy. Miss Mamie McLean is much better and entirely out of danger.

—Hon. Phil B. Thompson, Gov. Jas. B. McCreary and Judge M. J. Durham were here Wednesday. They had an appointment to speak, but on account of it being circuit court at Mt. Vernon, the crowd was so limited that they excused themselves by making a number of private speeches, until the people were let fully into the light of Little Phil's views upon the school question. It was the general opinion that Rockcastle would instruct, for McCreary, but now it is somewhat mixed. Tuesday was one day at Rockcastle Quarry and as usual we heard a few pistol shots and some lead talking, but we are glad to say we are having less drunkenness than usual.

—John W. Eubank sold to Payton Cook, a pair of mules 11 bands high, four years old, for \$275.00. Green Morris, of the Three Springs neighborhood, had a cow to give birth to three male calves last week weighing respectively 32, 60 and 62 pounds. Porter Bros. made the following sales and purchases of stock during the past week: Sold to Brown & Oxford, of Philadelphia, 115 head of cattle at 3 cents per pound and he delivered the latter part of August. Bought of Phil Hays twenty head of 1300 pound cattle at 5 cents per pound and a car load of fat pigs at \$5.05.
—(Hawling Green Gazette)

CATTLE
Common to medium..... \$2.00-3.12
Good to extra..... 3.12-3.50

BRIGHT, LINCOLN COUNTY.
—Mrs. D. N. Present and Mrs. Catherine Blakely have been quite sick but they are both convalescing.
—The tobacco growers of the Providence neighborhood have commenced cutting their crop, which is a very fine one.
—Messrs. Lynn & Pence, of Stanford, have been in this vicinity buying calves. They bought several at very fair prices. W. B. Frewitt, of Perryville, bought of R. L. H. table a car load of hogs at 5 cents.

—A little son of Mr. Tifford Alexander had his hand badly nipped by a cider mill a few days ago. Drs. Traylor and Carpenter were called in and found it necessary to amputate two fingers. The child is now doing well.
—Miss Melissa Eubank, accompanied by her brother Mack, left this week for an extended visit in Illinois. Messrs. Sallie Blakely, Dore Claunch, Allie Hubble and Lizzie Nummally are visiting Miss Mary Hubble. Mr. and Mrs. Wm. Cook, of Charles City, Ia., are visiting at Dr. W. W. Owsley's. Miss Lizzie Montgomery, of Lebanon, is visiting Miss Sue Yeager. Mrs. Jno. Metcalf, of Nicholasville, is visiting friends in this vicinity. Miss Bessie Engleman leaves to-day for a week's visit to Springfield. Mr. Jeff Swinebroad, of Tenn., is up on a visit to his brother, Mr. G. A. Swinebroad. Miss Lillias Buchanan, of Crab Orchard, is visiting Miss Lou Bright and a certain widow of this neighborhood is just too happy in consequence. Misses Agnes Bourne and Lois Sutton, of Garrard, paid a flying visit to Mrs. Sam Spoonamore yesterday. One of our leading merchants, who, by the way, is a regular masquer, prepared himself for a call. His toilette was so elaborate that he consumed a whole afternoon and just as he emerged from his room, in all the glory of his faultless attire, the young ladies disappeared around a turn in the pike on their way home, so that all this sweetness was wasted on the desert air.
